IDENTIFIERS *North Dakota

ABSTRACT

Information on degree and certificate programs and the rate of student completions at North Dakota postsecondary institutions is presented for fiscal year 1985-1986. Information is categorized by program level and by type of institution. For the two-year and four-year institutions, the chief administrator is identified. Data are provided on tuition (for full-time and part-time resident and nonresident students), fees, room and board fees for the 1986-1987 year, and highest level of program offerings. Information is also provided for state-supported institutions, private institutions, and community colleges on: one-year and two- year program offerings by subject, bachelor's degree offerings by subject, and master's and doctoral degree program offerings by subject. In these tables the type of graduate program is identified: master of science, specialist, Ph.D. or doctorate in education (Ed.D), and professional. In addition, for public and private institutions, statistics are presented on the number of students completing programs at each educational level by subject area. (SW)

INTRODUCTION

This report provides information on degree and certificate programs offered and student program completions for fiscal year 1985-1986 in North Dakota postsecondary educational institutions.

Institutional programs are coded, in accordance with the Classification of Instructional Programs (CIP Code) system provided by the Center for Statistics branch of the United States Department of Education. To assist readers, programs have been organized by level of offering: one and two year, bachelor's or graduate. Information included was provided by administrators at each institution.

Individuals desiring additional program information about vocational-technical programs should check the directory published by the State Board for Vocational Education. Students desiring information about institutional tuition, fees, room and board rates and financial aid should contact the institutions admissions office directly.

DEFINITIONS

Program Completed

A completed program is one in which the individual has met all of the requirements to obtain a degree or certificate in that field of study. This number may vary slightly from degrees granted since one person may complete two programs yet receive only one degree. This publication reports only programs completed.

Education Codes

CIP Codes with a 13 prefix indicate a program in education. Fields of study that offer an option that includes teaching certification list the corresponding education CIP Code in parentheses. Individuals looking for education programs should look under both the 13 code and the field of study.
